PART 2

TERMS OF REFERENCE

ABOUT THE ASSIGNMENT

2.1 BACKGROUND INFORMATION

Turkana County Government is one of the 47 county Governments formed by the county Governments Act in 2012 as prescribed in the Act and the 2010 Constitution of Kenya. With its capital in Lodwar, the County Government of Turkana is a government for the people of Turkana and whose Interests and aspirations are those for the people of Turkana.

At 77000 Sq. Km, Turkana County is the second largest county, covering more than 13% of Kenya's Surface. This Vast land in the northwest of Kenya is an awakening economic giant, for beneath its surface lie huge oil deposits that are currently being explored and will see extraction in an industrial scale during the years to come a windfall for a county with a population of slightly over 1 million.

Turkana County is situated in the North Western part of Kenya. The County is administratively divided into 7 Sub counties ,namely ;Turkana Central Sub county ,Turkana West Sub county ,Turkana North Sub- County ,Turkana East Sub -County ,Turkana South Sub county, Loima and Kibish , 30 wards, 56 locations that are further sub divided into 156 sub locations.

Turkana County has achieved different health milestones. The referrals to other level 6 Hospitals for emergency cases continues to derails service satisfaction for the patients and Staff. With different frameworks and infrastructural development, there is need to streamline and establish a level 5B Hospital for the achievement of desired goals of making Turkana safe in terms of Health Care.

In view of this, there is need for the County Government to engage relevant professionals to develop Architectural drawings, designs, structural drawings, electrical and mechanical building services drawings, Bills of Quantities and Other corresponding relevant designs, of the above mentioned facility based on the **Master Plan** *herein attached*.

The contracted professional as well will be required to visit the proposed site to see the condition of the land topography, Engagement with the user department for briefs and clarifications and presentation of the draft designs, BQs and drawings to the management.

2.2 SCOPE OF SERVICES OF THE ASSIGNMENT

In recognition of this need, Turkana County Government is seeking to recruit consulting firm(s) or consortium(s) capable of providing the requisite services.

Consultants may associate with other consultants to enhance their qualifications.

The assignment shall be completed within **60 Days**.

□ Level 5B Building structure includes;

- | | |
|---|--|
| <ul style="list-style-type: none">▪ Hospital with 450 bed Capacity▪ Separate OPD from A& E Department▪ Functional Departments of medicine, paediatrics, surgery, obstetrics & gynaecology and community health▪ 12 functional ICU beds▪ 12 functional HDU beds▪ At least 7 functional theatres (Maternity, general, orthopedic, paediatric, ENT, dental and ophthalmology) | <ul style="list-style-type: none">▪ Radiology services (CT scan , EEG, MRI, Mammography)▪ Specialist services (Radiotherapy, chemotherapy, specialized surgeries, dialysis, clinical pharmacy)▪ Differentiated Pharmacy services to include: (main, outpatient and ward-level pharmacy)▪ CSSD Department▪ Burns unit |
|---|--|

2.3 OBJECTIVES OF THE ASSIGNMENT

The main objective of the assignment is to prepare final design, drawings, cost estimate and all necessary work leading to Detailed Project Drawing and 3D Model of the hospital premises to the satisfaction of the client. A topographic survey is already in the Master Plan, but the consultant should carry out final topographical survey to be more precise.

- A small presentation, for the work done & tentative proposed plan for the work to be presented before the stakeholders.

The specific objectives are as follows:

- a. Conduct detailed assessment / survey of Construction site.
- b. Prepare detailed architectural design and drawings, structural design and drawings, electrical design and drawings, amenities such as compound wall, landscaping design, Heating, ventilation, and air conditioning (HVAC) system, Water supply and sanitary system, Gas/oxygen pipelines, drawing pertaining to fabrication of steel, and architectural facade work etc. of the proposed Level 5B hospital building in compliance with Health Building Infrastructure Designs, Policy framework of the Turkana County Public Works Department and National Government State Department for Public Works.
- c. Prepare and submission of preliminary estimate for the above mentioned work as per requirements including equipment foundation work.
- d. Supervision as per site requirement as and when required during execution of work.
- e. Obtaining statutory approvals/permissions from authorities concerned.
- f. **3D** layout/Model drawing shall be submitted.

2.4 METHODOLOGY

- a) **Civil:** Shall design Pre-Engineered Buildings (PEB) structure with civil work including, water supply, Water Treatment, Sewage disposal, soil investigation and topographical surveys, landscaping, design foundation for Equipments etc for the entire proposed Level 5B Hospital. The design specifications should be based on guidelines and should comply to IS: Standards.
- b) **Electrical:** Shall design Electrical Distribution, Panels, Cabling, Switchgears, Transformers, UPS, lighting, DG Set, Controls, Earthing, etc, for the entire proposed Level 5B Hospital. Power calculation should be done to ensure in interrupted operation of the Hospital. Grounding of entire data center and individual equipments shall also be part of electrical design.
- c) **Mechanical:** Shall design HVAC (heating, ventilation & air conditioning), Precision Air Conditioning & Comfort Air Conditioning for Office Area, pumps, filters, piping, ducts, insulation system, etc, for the entire proposed Level 5B Hospital.
- d) **Interiors:** Shall design Interiors for I&C Center, and associated buildings (Wall paint/Office Space/Furniture/file storage cabinets/Manager's room, etc.)
- e) **Building Management System:** Shall design Building Management and Control system. Building Management service should be able to integrate all physical and electronic systems in datacenter over an IP platform. A Mediator platform should be incorporated to ensure the information flow between various devices and systems.
- f) **Security:** Shall design Access Control System, Surveillance System, Attendance System, building security, etc. All systems and sub-systems for security shall be designed for IP platform integration.
- g) **Fire Detection & Suppression System:** Shall design fire detection, suppression and alarm system for the entire Proposed Level 5B Hospital.
- h) **Office Space and Amenities:** Shall design office space and amenities with complete data, voice & electrical wiring and associated requirements for about 100 persons.
- i) **Hardware & Networking:** Shall design LAN, Internet Connectivity and other data & voice connectivity, drawing specifications of hardware, networking devices, security devices, Server Racks, Network Racks, etc, required for the data centre.
 - The individual components like LAN Cabling, Electrical Wiring, etc, should be as per the International standards
- j) **Network Operations Centre (NOC):** Shall design the Network Operations Centre (NOC) and prepare specifications for all the hardware & software components required for it.
- k) **Disaster Recovery (DR):** Shall design the near-site and far-site DR plans for the I&C Center.
- l) **3D layout/Model** drawing shall be submitted.

- m) Prepare a documented booklet on all works in the identified site including preparing new plans where none are available for future use by the TCG.
- n) Recommend suitable personnel for maintenance team on all completed works for consideration of the client.
- o) Because of the need to consult on some particular works from time to time, the consultants are required to indicate the individual hourly, daily, weekly or monthly rate for use when continuous engagement is not desirable

2.5 Reporting Systems and time Schedules

The consultant shall be required to submit site meeting notes during the assignment as stipulated in the technical proposal.

2.6 Personnel, Facilities and Other Requirements

Turkana County Government – Department of Medical Services, will strive to avail the personnel, facilities and other requirements needed for the successful completion of the Assignment.

2.6 Mobilization Period

Time is of essence in this project and Consultants will be allowed a mobilization period of not more than 14 days. Consultants are therefore required to give an indication of the duration they require to mobilize their resources to start on the assignment from the date of notification, if they are successful.

2.8 Reporting

The successful consultants will report to the Project Manager on a day to day basis, with regular updates and advise to the Projects Steering Committee

The consultants will prepare and submit weekly (or at such other intervals as may be agreed from time to time) reports on their specific work, on the project activities progress in line with the implementation plan, and identified project risks and proposed mitigating measures

2.9 Potential Risks

Consultants are also required to identify potential issues and/or risks that will require special attention, indicating the level of interventions and/or involvement required from NTSA and/or other parties

2.10 Terms of Payment

Basis of payment

Payment based on the acceptance of the deliverables

- | | | | |
|----|----------------|--------------------|--------------------------|
| 1. | First Payment | - Inception report | - 10% of Contract Amount |
| 2. | Second Payment | - Mid term report | - 10% of Contract Amount |
| 3. | Third Payment | - Draft Report | - 30% of Contract Amount |
| 4. | Last Payment | - Final 3D Model | - 50% of Contract Amount |

NB: All payments will however be done through the lead consultant who will be the spokesman of the consortium

PART 3

EVALUATION CRITERIA

3.1 EVALUATION CRITERIA

The method of evaluation will be Merit Point System and the evaluation criteria will be applied as indicated here below: -

Evaluation of tenders shall be carried out in accordance with the criteria set out in this EOI document. The evaluation shall be as carried out in Two Stages as follows:

- a) Preliminary Evaluation
- b) Technical Evaluation.

Preliminary Evaluation Criteria

No.	Mandatory Requirements	YES or NO
1.	Letter of Expression of Interest.	
2.	Copies of Incorporation/Registration certificates (if Joint Ventures/Consortia. (All partnering firms to comply)	
3.	Copy of KRA PIN certificate (if Joint Ventures/Consortia, All partnering firms to comply)	
4.		
5.	Copy of valid Tax Compliance Certificate from KRA. (If Joint Ventures/Consortia (All partnering firms must comply).	
6.	Dully Filled, signed and stamped Confidential Business Questionnaire.	
7.	Copies of CR 12 for registered companies for the last six (6) months and copies of National IDs for partnerships & sole proprietors. (If Joint Ventures/Consortia, All partnering firms to comply).	
8.	The bidder MUST be in consultancy business for designing infrastructure building.	
9.	Business Permit issued by any County Government in Kenya.	
10.	Must provide the letter of professional indemnity.	
11.	Dully filled, signed and stamped Self Declaration that the person/tender not to engage in any corrupt or fraudulent practice.	
12.	Must fill up, signed and stamped declaration that the bidder or his or her sub-contractors are not debarred from participating in Public Procurement.	
13.		
14.	Upload Company profile, sketch map of your current residence and proof of ownership of your residence.	
15.	Attach written agreement that clearly specifies the lead partner and their roles (for joint ventures and consortia).	
16.	A brief description of the Methodology to be used to successfully undertake the assignment	

At this stage, the Tenderer's submission will either be **Responsive** or **Non-Responsive**. Failure to provide any of the above mandatory requirements will lead to disqualification.

a) Technical Evaluation.

No	Requirements	Evidence	Max. Score																																														
	Experience	<p>The bidder must be in consultancy business for designing infrastructure building at least for the last 8 years and must have executed at least three (3) same/similar project during last 5 years.
